Notwithstanding any other provisions of this chapter, certain temporary portable signs shall be allowed on public sidewalks within the Downtown Service Center (DSC) and the Campustown Service Center (CSC) Zoning Districts, subject to the conditions and requirements hereinafter provided. Any proprietor of a business establishment may use a portion of the public sidewalk or parking strip, for the purpose of displaying one temporary portable sign for such establishment. For purposes of this section “proprietor” shall mean the owner or manager of a business
establishment located in the DSC and CSC. The displaying of a temporary portable sign as permitted by this section is subject to the following restrictions:

(Ord. No. 4346, 4-24-18)

1. The portion of the public sidewalk that may be used by the proprietor of such business establishment for the display of such signs is the area of the public sidewalk that extends from the storefront of the establishment to the adjacent street curb and between the side property lines of the building in which the establishment is located, as such side property lines are extended to the adjacent street curb.

2. There must nevertheless be a minimum of four feet of unobstructed public sidewalk between such storefront and the edge of the sign closest to the storefront, or between the edge of the sign closest to the street and the inside edge of the street curb, in order to allow for the free passage of pedestrian traffic on the public sidewalk, provided, however, that the city may, in granting a permit under this subsection, require more than four feet of unobstructed public sidewalk clearance if, in the reasonable determination of the city, such additional clearance is necessary in the interest of public safety, health, or welfare, in light of the peculiar circumstances involved with the physical characteristics of the public sidewalk area in question; and provided, further, that all such temporary portable signs must in all events maintain at least a two-foot setback from the outside edge of said sign to the inside edge of the street curb.

3. No such temporary movable sign shall be attached in any manner to the public sidewalk, or to any public fixtures located on the public sidewalk, such as tables, chairs, or other fixtures, or on top of any temporary elevations such as fill material or snowbanks.

4. No such temporary sign shall exceed two and one half (2.5) feet in width and four (4) feet in height in outer frame measurements, with such height measured from the natural grade of the sidewalk surface adjacent to such establishment. No more than one such sign may be placed in front of any single store-front at any one time, except that for store-fronts of buildings in which more than one business establishment is located one sign per business establishment may be permitted. All such signs must be well-maintained and kept in good repair.

5. No such temporary movable sign shall be illuminated internally or externally.

6. By the closing time of such establishment each day or 10:00 o’clock P.M., whichever time is earlier, each such sign shall be moved inside the building adjacent to which the sign is displayed, restoring the public sidewalk to its normal condition as a pedestrian walkway.

7. Before the proprietor of any such an establishment may lawfully place any such temporary sign on the public sidewalk in front of such establishment, the proprietor shall file an application for a permit with the city clerk of the city, on a form furnished by the city clerk, and shall pay a non-refundable annual permit fee therefor, in such amount as shall be determined from time to time by resolution of the city council and listed in Appendix D. The application and an accompanying diagram or site plan shall show:

   (i) the dimensions, including the length and width, of the public sidewalk and parking strip that is adjacent to said establishment, as described in this subsection;

   (ii) the four-foot area of unobstructed public sidewalk which is to be reserved for pedestrian use, and the two-foot setback from the outside edge of said sign to the inside edge of the street curb;

   (iii) the approximate location where the sign shall be positioned, and the size of said sign, including its outer dimensions;

   (iv) proof that the applicant holds a valid license or permit to operate the business establishment;

   (v) the written consent to the filing of said application from the owner of the building in which such establishment is located, if the applicant is not the owner of the building;

   (vi) proof of insurance and compliance with the indemnification requirements set forth in subparagraph 15 of this subsection; and

   (vii) such other information and documentation as the city may require in order to demonstrate that the proprietor complies with the requirements of this subsection.

8. The city clerk shall forward a copy of the proprietor's application, together with all other information and documentation required in connection with said application, to the building official for review as to compliance with the requirements of this subsection, and compliance with the interest of public safety, health, or welfare. If the application is approved by the building official as being in compliance with the requirements of this subsection, the city clerk shall issue a permit therefor to the applicant. If the application is not approved by the building official, the city clerk shall notify the applicant of the reason or reasons the application was not approved.
The applicant shall be afforded a period of 30 days from the date of the city clerk's notice, within which to revise the application in an effort to comply with the requirements of this subsection and to correct the reasons for denial thereof. If the revised application is approved by the building official, the city clerk shall issue a permit. If the revised application is not approved by the building official, the city clerk shall not issue a permit. In that event, the applicant shall have a period of 20 days from the date of notice of denial to appeal the denial to the Building Board of Appeals as provided in Municipal Code chapter 5, Division VI. The Building Board of Appeals shall conduct a hearing on the appeal of the denial of the application within 30 days, and shall afford the applicant an opportunity to present information in support of the application, and shall issue a decision to either approve the application, which may be conditioned on one or more requirements, or to deny the application. The decision of the Building Board of Appeals shall be final, and the building official shall take prompt action in accordance with the decision of the Board.

(9) Any permit issued under this subsection shall be issued for a period of one-year, and may be renewed upon the filing of an application by the proprietor for renewal of the permit before its expiration, and by payment of the required annual fee. The application for renewal shall state whether or not any of the contents of the original application are being revised, failing which the contents of the application for renewal shall be deemed to be the same as contained in the original application.

(10) In the event that ownership of the business establishment holding the permit is sold, conveyed or transferred to another person or entity, the permit shall not thereby be transferred, and the new owner shall be required to file a new and separate application for such a permit, as provided in this subsection.

(11) The city reserves the right to limit the number of permits issued under this subsection if necessary to maintain adequate pedestrian flow, to permit adequate access to building entrances, to safeguard pedestrian and traffic safety, to preserve the aesthetic quality of the surrounding area, or for any other valid public purpose. The city reserves the right to either deny an application which otherwise meets the requirements of this subsection, or to require the proprietor to meet additional terms and conditions for issuance of a permit beyond the requirements set forth in this subsection if, in the reasonable determination of the city, either granting the permit, or granting it without such additional terms and conditions, would not adequately protect and preserve the rights, privileges, and property of the city or its residents, or would not adequately protect or preserve the peace, safety, health, welfare, comfort or convenience of the city's residents.

(12) The City Manager may order the immediate removal of any such temporary sign in the event such sign is causing a hazard to public safety, health or welfare, is interfering with the unobstructed passage of pedestrians, is unsightly in appearance, is interfering with the removal of ice and snow from the public sidewalks, or for any other reason affecting public safety, health or welfare.

(13) A permit issued under this subsection shall be revoked by the city if the proprietor holding the permit does any of the following:
   (a) Fails to maintain a valid license or permit covering the establishment adjacent to which the sign is located;
   (b) Fails to remove the sign from the public right of way by the time required in this subsection;
   (c) Fails to pay the fee for issuance or renewal of the permit;
   (d) Fails to operate in strict compliance with all of the provisions of this subsection, of all other city ordinances, and of state law; or
   (e) Creates or allows the existence of a safety hazard in connection with the placement of the sign.

Upon occurrence of any of the events described in this subparagraph, the city clerk shall give the proprietor of such establishment seven days' written notice of revocation of the permit, and the permit holder shall thereupon immediately cease to place any such sign on the public sidewalk or parking strip adjacent to the proprietor's establishment.

(14) The permit holder may appeal the revocation of the permit by written notice of appeal mailed or delivered to the city clerk within ten days of the date of notice of revocation. The Building Board of Appeals shall conduct a hearing within 30 days of the date of the notice of appeal. The permit holder shall be notified in writing of the time and place of hearing thereon, and shall be afforded an opportunity to present information to the Board, following which the Board shall issue a written decision within thirty days of the date of the hearing, either affirming or reversing the revocation of the permit. The decision of the Building Board of Appeals is final.
pendency of the appeal, the permit holder shall not be allowed to place the sign on the public sidewalk.

(15) The city shall retain the right to terminate any permit granted under this subsection upon seven (7) days' written notice, and may require the removal of the sign from the public sidewalk adjacent to an establishment, if the city council, after due consideration, determines that there is a reasonable and substantial need for the use of the public right-of-way being occupied by such sign, for a valid public purpose. The determination of the city council shall be final, and there shall be no right of appeal from such decision.

(16) A permit for a temporary movable sign shall not be issued under this subsection unless the applicant, at the time of filing an application for issuance or renewal of a permit, furnishes proof of insurance and indemnification of the city that meets the following requirements:

(a) Comprehensive insurance coverage in the amount of $500,000.00 combined single limit, with coverage at least as broad as the ISO Form Number CG0001, covering commercial general liability written on an occurrence basis only, with the city to be named as an additional insured on the policy, with an endorsement to be issued as part of the insurance policy evidencing compliance with this requirement, and with a copy of the current insurance certificate maintained on file with the City Clerk; and

(b) An indemnification agreement on a form furnished by the City Clerk, under which the proprietor agrees to indemnify and hold the city harmless from any liability for damages arising out of the placement of the temporary movable sign in the public right-of-way.
