

Notice of Construction

Public Works Department, Engineering Division
515 Clark Avenue, Ames, Iowa 50010
515-239-5160

Clark Avenue (Main Street to Lincoln Way)

Date: Tuesday, October 25th

Project Update: The City of Ames has contracted with Con-Struct, Inc. of Ames, Iowa for street improvements to Clark Avenue. Con-Struct has completed Phase 1 and has requested to delay reconstruction of Phase 2 (railroad tracks to Lincoln Way) until the spring of 2017. Through discussion between City staff and the contractor, it was agreed the amount of work to be completed in Phase 2 cannot be done in the number of anticipated favorable working days remaining this construction season. Therefore, the contractor intends to return in the spring of 2017 once favorable weather allows. At this time work is anticipated to resume in April/May 2017 for Phase 2. In the interim, there will be temporary pavement markings placed in Phase 1 to match the existing pavement markings in Phase 2. Once Phase 2 is reconstructed, permanent pavement markings will be placed the entire length of the project, which includes the addition of bike lanes and green pavement markings within the bike lanes. **See map on the reverse side of this letter indicating the two project phases.**

Action Required by Businesses: None at this time. Phase 1 will be open to traffic on Monday, October 31, access from Clark Avenue to public parking lots X and U will also be open and vehicles will be able to travel through the entire project corridor. A future notice will be delivered to adjacent businesses in the spring of 2017 once a start date for Phase 2 is set by the contractor.
