# Civil Engineer II

Public Works Department - Engineering Division

## Position Summary

The City is currently seeking qualified applicants for the Civil Engineer II position. The successful candidate will be a licensed engineer who will join a team responsible for managing public infrastructure projects from concept/design through construction; working with contractors and staff on public works related topics; responding to general and project specific inquiries from customers; and performing engineering and GIS-related analysis, graphics, and mapping. Additionally, the successful candidate will mentor, supervise, and train engineering staff and co-op students. Find the full description: <http://www.cityofames.org/jobs>.

The 2017-2022 Capital Improvements Plan can be found at [www.cityofames.org](http://www.cityofames.org) under the departments of Finance or Public Works.

Grand Avenue Extension is in its third phase for the extension of a major north-south corridor that will alleviate congestion and present opportunities for growth in Ames.

## Qualifications

**EDUCATION:** Bachelor's degree in Civil Engineering or related engineering field, minimum of five years experience in civil engineering surveying, drafting, and design work. Supervisory and project coordination experience or training is desirable.

### LICENSES/CERTIFICATIONS:

Must be a registered Professional Engineer in the State of Iowa, or must be a registered Professional Engineer in another state and can demonstrate the ability to become registered as a Professional Engineer in Iowa within six months of appointment.

### KNOWLEDGE/SKILLS/ABILITIES:

Comprehensive knowledge of computer aided drafting, surveying, and engineering drafting. Knowledge of public works regulations, contract administration, zoning and development, and fire/plumbing regulations. Knowledge of sanitary sewer design principles. Comprehensive skills in contract preparation, plans and specifications, and engineering related estimates. Skill in inspection of construction projects and advising construction/contract adjustments. Comprehensive ability to prepare and interpret drawings, graphs, charts, and maps. Ability to establish and maintain effective working relationships with citizens, supervisors, subordinates, coworkers, and contractors. Ability to direct and supervise personnel.

## How to Apply

Applicants interested in a professional, fast paced, collaborative environment are encouraged to apply! For questions about the Engineering Division contact Municipal Engineer, Tracy Warner at 515.239.5163 or [twarner@city.ames.ia.us](mailto:twarner@city.ames.ia.us). Applications must be filed online at <http://www.cityofames.org/jobs>
