

MEMO

To: Operating Record

Date: January 8, 2026

Subject: Notice of detection of SSL

Pursuant to 40 CFR 257.95(g) and 257.105(h)(8), this memo serves as notification that the City of Ames Electric Department was notified on December 10, 2025, that arsenic in monitoring well 106 (MW-106) is at a statistically significant level above the ground water protection standard. The facility is currently undertaking an alternate source demonstration per 40 CFR 257.95(g)(3)(ii).
