workzone location
detour routes

All east and westbound lanes of Bloomington Rd. will close from Stange Rd. to 500' west of Eisenhower Ave.

This work is scheduled to begin on **Monday, June 29th.**

Manatts and their subcontractors will continue with mill and overlay operations and full-depth replacement of the railroad approaches for east and westbound traffic. The shared-use path on the south side of the closure area will also close for removal and replacement during this stage of the project.

The Bloomington Rd. and Stange Rd. intersection will reopen to north and southbound traffic through the intersection. All lanes west of the intersection will be open to traffic.

Hyde Ave. at Bloomington Rd. will be closed for the duration of this stage of the project.

Access to the Ascension Lutheran Church will be maintained with their east access. The main access will be closed.

Anticipated Duration

- The full closure of Bloomington is anticipated to be **3-4 weeks**

Action Required by Residents:

East and westbound traffic looking to travel through the closure area can use the signed detour route of George Washington Carver Ave., 24th St., and Hoover Ave. Please see the included map.

Pedestrians will need to cross to the north side of Bloomington Rd. and use the sidewalk. Available crossings will be at Stange Rd. and Eisenhower Ave.

Hyde Ave. residents will use Eisenhower Ave. to access Bloomington Rd.

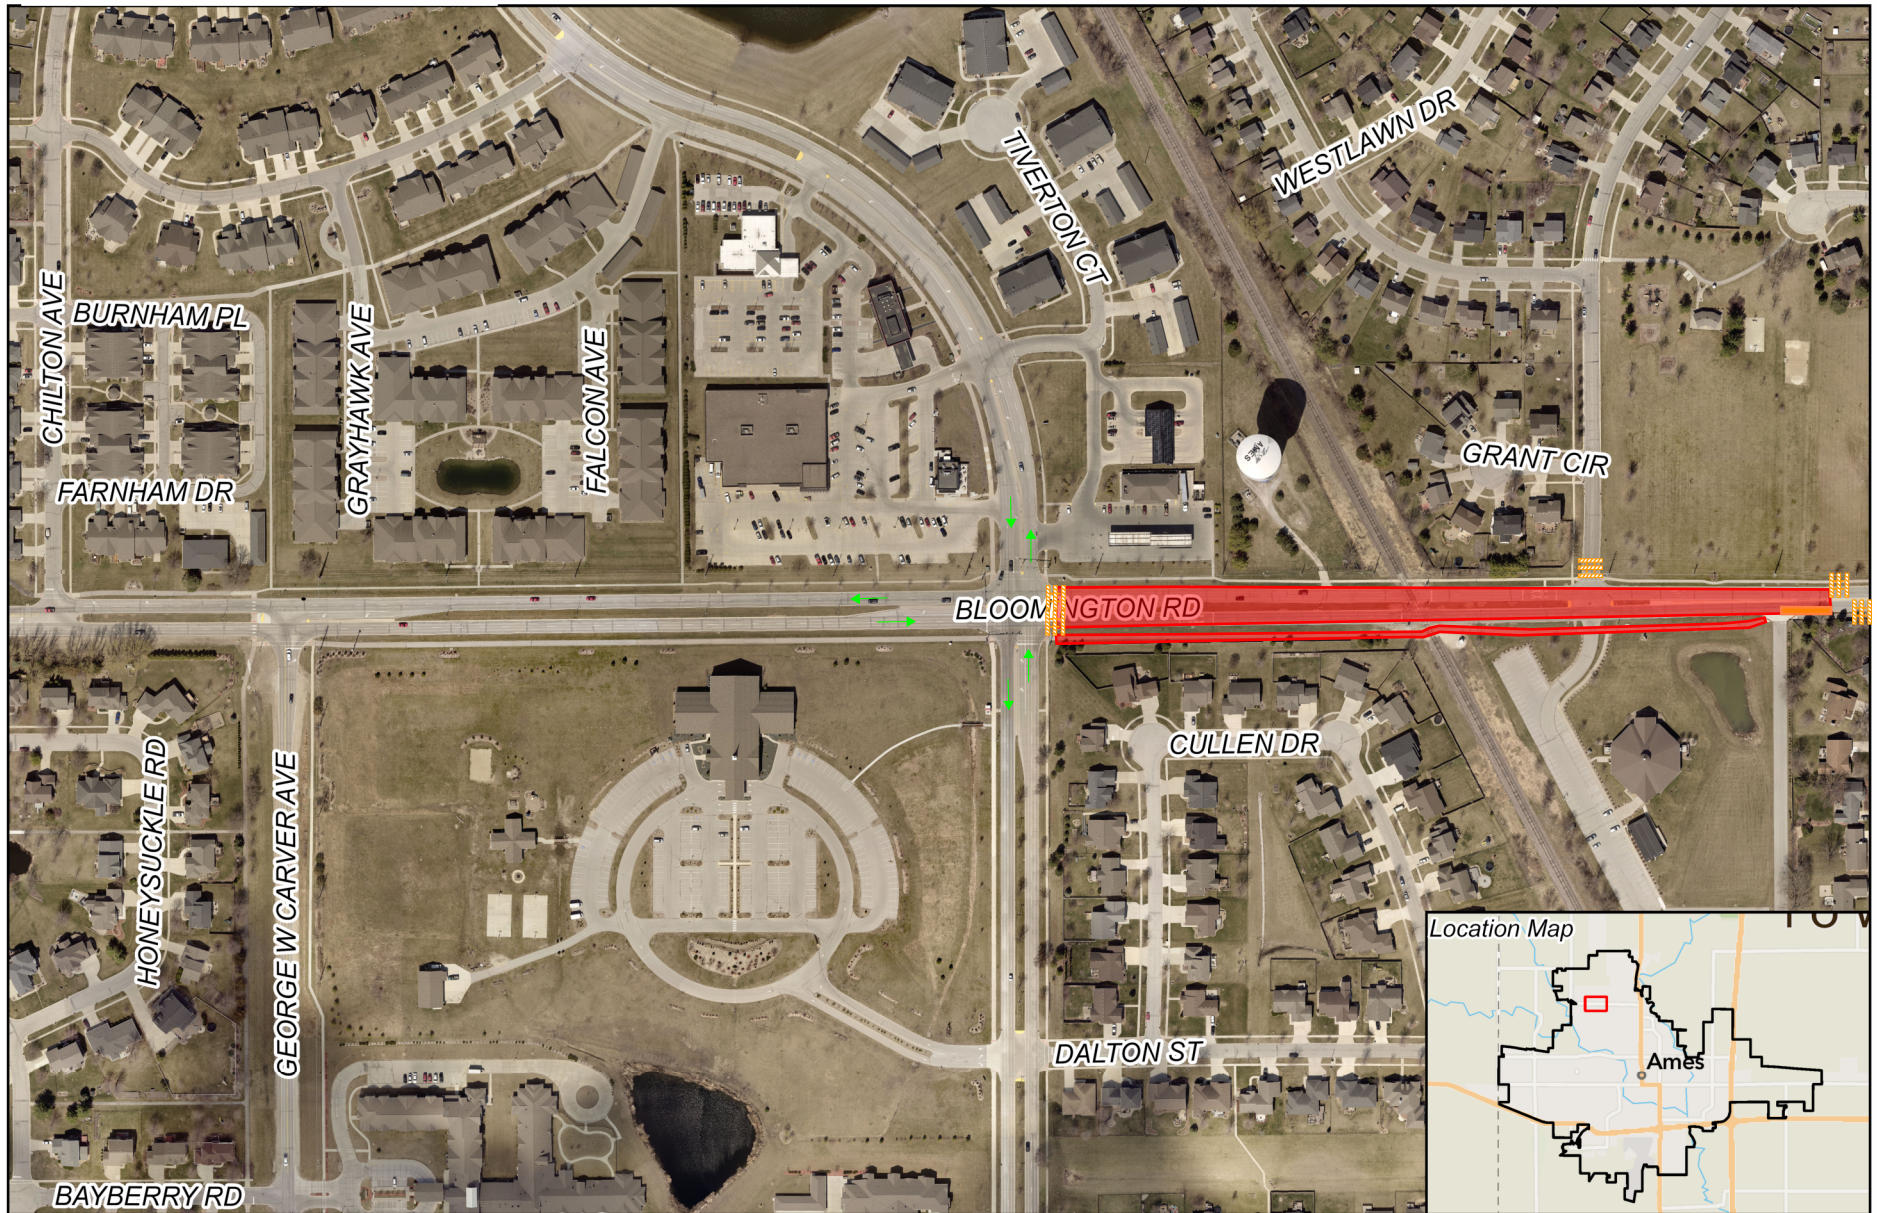

The **Ascension Lutheran Church** will use their east access during this stage of the project.

Project Details: The City of Ames has contracted Manatts for the rehabilitation of Bloomington Rd. The project includes the mill and overlay of Bloomington Rd from George Washington Carver Ave to 500 feet west of Eisenhower Ave. This will be completed in 2 main stages. The lanes east of Stange Rd will require a full closure to coordinate and complete work around the Union Pacific Railroad crossing. The project will also include the replacement of the shared-use path along the south side of Bloomington Rd from Stange Ave to just west of Eisenhower Ave. Additionally, ADA ramps and pedestrian push buttons for the Stange intersection will be updated to meet current standards.
