Terms and Conditions

- Participants must be City of Ames Electric Services' customers and must be pre-approved; call 515-239-5177.
- Rebates will not exceed 50% of equipment cost.
- Cases where the incentive is estimated to exceed \$5,000 are evaluated on a case by case basis.
- **System must be installed and generating before application for rebate can be made.**
- **Systems qualifying for rebate must produce electricity during the hour of 5:00 pm to 6:00 pm in the months of June, July, August and September.**
- **Rebate will be paid based on the maximum kW generated during the above described timeframe. An hourly estimate of system output from National Renewable Energy Laboratory's (NREL's) PVWatts () is required.**
- **An executive summary must accompany this claim form that:**
 - **1. Outlines the system installed.**
 - **2. Provides array generation during the peak time given above and outlining the assumptions used to determine array output. All data is subject to verification.**
- **Electric Services reserves the right to question assumptions leading to array output estimates.**
- **Proof of purchase (ownership) for the photovoltaic system must accompany this rebate application.**
- All claims are reviewed by City of Ames Electric Services. Electric Services reserves the right to deny any claim that does not meet the goal of reducing utility summer peak-time demand.
- Applications must be submitted within 60 days of the end of summer (October 1st) unless otherwise authorized.
- Rebate checks will be issued to property owner unless otherwise established prior to submission of application.
- City of Ames Electric Services reserves the right to verify kW generation of equipment.
- City of Ames Electric Services reserves the right to claim Renewable Energy Credits (REC's) available from this installation.
- **If sole proprietor or partnership, the applicant must provide a Form W-9 with the legal name and either a social security number or employer identification number.**
- Rebates may be subject to income tax. Consult your tax advisor for more information.

Disclaimer

City of Ames Electric Services does not guarantee that installation and operation of power factor correction equipment will result in reduced demand or in cost savings. The manner in which a customer uses and maintains the equipment may affect potential cost savings. City of Ames Electric Services makes no warranties, expressed or implied, with respect to any equipment purchased or installed, including, but not limited to, any warranty of merchantability or fitness for a particular purpose. In no event shall City of Ames Electric Services be held liable for any incidental or consequential damages or injuries resulting from defective equipment or installation. City of Ames Electric Services reserves the right to cancel or change programs at any time. Rebates are subject to availability of funds. City of Ames Electric Services' acceptance of an application does not guarantee payment of rebate or acceptance of financing.

Project Share

The Ames Electric Services Project Share program continues to be a success because of the compassion and generosity of our customers. A simple way to share the warmth with those in need is to make a monthly pledge or a one-time contribution to Project Share. The purpose of the Ames Electric Services Project Share program is to solicit and accept contributions which are used to assist our low-income customers. A committee appointed by the Ames City Council determines the permissible uses of the funds donated to the Project Share program. The committee has adopted guidelines to ensure that every dollar contributed is used to assist low-income customers. All expenses incurred in the administration of the program are covered by Ames Electric Services as a donation in-kind. Mid-Iowa Community Action (MICA) assists the City of Ames in the Administration of the program by determining eligibility of applicants for Project Share funds.
