

What do I do if the permit information that I would like to obtain is not available through report drop down?

All of our information is public record and can be obtained when requested. The report tab allows customers to run the reports that we thought would be most requested. If the information you would like to obtain is not listed, please file an Open Records Request with the City Clerk's Office ([click here](#)). Additionally, if there is information that you plan to obtain frequently, please email [inspections@cityofames.org](mailto:inspections@cityofames.org) and we will try to add the report to the drop-down menu.
